PHASE 1 — STAGE 1

Data Engine: Stage Breakdown

What is included, what you will see, and how approval and payment work.

Prepared for	Aaron, Business Broker and Founder	**Prepared by**	Somir Chandra Dash
Time	2 to 3 weeks from start	**Stage 1 price**	**$480** (standard $600, less 20% partner discount)

What is included

- **Control panel for sources:** a list of every source, its update schedule and its health.
- **CatchBuys connection:** listings pulled in automatically.
- **Cleaning and standardizing:** prices, seller earnings (SDE), revenue, location and industry in one consistent layout.
- **Saved original data:** a copy of what each source sent, so mistakes can be fixed later without asking the source again.
- **History tracking from day one:** every change to price, earnings, revenue and status is recorded.
- **Update log and alerts:** a record of every update run, and a warning if a source stops working or changes.
- **Rules check:** a review of CatchBuys rules on what you may show and keep.

What you will see in the demo

- Real CatchBuys listings in the clean, standard format.
- The change history of a listing.
- The update log showing the system running on schedule.

Approval and payment

- Stage 1 is approved when the items above work as described in the demo.
- You have **3-5 business days** after the demo to review and approve.
- Payment of **$480** is due once you approve.

Not part of Stage 1

The public website, buyer sign-up and tracking, and the second source. These come in Stages 2 and 3.

Phase 1 payment overview

Stage	Name	Time	Price (after 20% discount)
Stage 1	Data Engine	2–3 weeks	$480
Stage 2	Data Service	2 weeks	$560
Stage 3	Website and Launch	2–3 weeks	$640
		Phase 1 total	**$1,680**
